SUMMARY

B.Tech CSE student (2024–2028) and Google Student Ambassador (GSA 2026) with hands-on experience in full-stack development, AI-integrated web applications, and cloud deployment. Built and deployed projects using Python, Java, JavaScript, Firebase, and Google Cloud. Holds Google AI Essentials certification; competed in 6+ hackathons including Google Cloud Gen AI Academy APAC 2026. Practises DSA daily on LeetCode and contributes actively to open-source development.

SKILLS

Languages: Python, Java, JavaScript | **Web & Backend:** HTML5, CSS3, REST APIs, Firebase, React (basics)
Databases: SQL, MySQL, Firebase NoSQL | **Tools:** Git, GitHub, VS Code, Vercel, Google Cloud Run, Docker
Core CS: Data Structures & Algorithms, OOP, DBMS, SDLC, NLP/ML (exposure), Generative AI

EXPERIENCE

Google Student Ambassador (GSA) — Gemini Program 2026

May 2026 – Present

Google · DVR & Dr. HS MIC College of Technology, Vijayawada

- Selected as Google Student Ambassador representing Google AI & Gemini initiatives on campus at a national level.
- Counsel 100+ peers on Google AI, Cloud, and developer certification pathways; organize hands-on workshops and campus missions.

PROJECTS

VoteWise AI – Civic Tech Voter Guidance Platform | *React, TypeScript, Vite, Gemini 1.5 Flash, Google Cloud Run, Docker* [\[GitHub\]](#) [\[Live\]](#)

- Built a full-stack AI-powered civic tech app integrating Google Gemini 1.5 Flash to provide context-aware voter guidance for first-time and university students.
- Engineered a deterministic recommendation engine (pure TypeScript, 5 user personas) outputting prioritised action plans — isolated from UI for testability via Vitest.
- Containerised with multi-stage Docker and deployed to Google Cloud Run with a /health endpoint; achieved ~124 kB minified JS footprint using Vite + Rollup tree-shaking.
- Implemented WCAG 2.1 accessibility: high-contrast mode, 44×44 px touch targets, keyboard :focus-visible navigation, and prefers-reduced-motion CSS support.

DSA-Practice – Daily Algorithms Repository | *Python, Data Structures & Algorithms* [\[GitHub\]](#)

- Maintained structured Python codebase with 22+ commits covering Arrays, Strings, Linked Lists, Dynamic Programming, and Pattern Matching; organised by topic and difficulty.
- Achieved 30+ GitHub contributions in the last year through disciplined daily problem-solving, building interview-ready algorithmic thinking.

EDUCATION

B.Tech – Computer Science & Engineering

2024 – 2028

DVR & Dr. HS MIC College of Technology, Vijayawada | CGPA: 7.3 / 10.0 | Coursework: DSA · OOP · DBMS · Software Engineering · NLP
12th – PB Siddhartha Arts & Science Junior College | 10th – APSRMCH High School (85%)

CERTIFICATIONS & ACHIEVEMENTS

- Google AI Essentials – Coursera Specialisation (5 courses), May 2026 · Verify: coursera.org/verify/specialization/HUK5A6SI7Q5K
- Google Cloud Gen AI Academy APAC 2026 – Hackathon Participant; built real-world AI solutions on Google Cloud · ID: 2026H2S05GCGENAIAPACC1-P00200
- Competed in 6+ hackathons including PromptWars (VoteWise AI); rapid prototyping under 24–48 hr deadlines with real-world AI/cloud delivery.
- Python for Data Science (Coursera) · Google Skills Program · LeetCode: daily DSA practice across Arrays, Strings, Trees, and DP.
- 4 public GitHub repositories · 30+ contributions in the last year · 2 stars received on open-source projects.
